Assess the session using the SII Method of Assessment

Strengths (including why)

The presenter was passionate about her topic.

Areas for Improvement (including how)

The description mentioned that we would do a survey to get a sense of our CQ. This was not done. The case studies were helpful, though. Also, she needed to time herself better- had to rush through most interesting part.

Insight (including significance)

Sometimes those in the PE mode of thinking become judgmental of other approaches.
