Are YOU a self-grower?

Self-growers are life-long learners who are committed to success and show it through hard work, persistence, and belief in their own ability. They seek challenges to develop self-growth such as taking risks to get outside their comfort zone, embracing failures, seeking feedback and using self-assessment. They prepare, engage, and collaborate, planning effectively and prioritizing in order to manage their time and resources. They develop and grow without limit to realize their life vision and potential.
