

Process Education CONFERENCE 2021

JUNE
24 – 26

Call for Proposals

We believe that we can do more than adapt; we believe that change, as uncomfortable as it may be, can also represent opportunities for growth.

The 2021 PE Conference is focused on how Process Education principles, practices, and tools can be used to help students, faculty, and staff

experience growth in times of change. We invite you to share your experience in researching and creating engaging, effective, and growth-oriented practices during this time of challenge and change throughout education. **Whether your focus is at the level of the individual, classroom, or institution, we'd love to hear from you!**

CONFERENCE THREADS

- **Plenary Sessions** — Individuals or panels focusing on one specific topic of interest to the entire membership.
- **Practitioner Sessions** — Practitioner-focused sessions offered by individuals or a panel
- **Research Sessions** — Research-focused sessions shared by individuals or a panel
- **Paper Sessions** — Sessions including 2 or 3 brief topical discussions of papers with follow-up dialogue
- **Hall of Innovation** — Asynchronous sessions promoting or highlighting specific practices tied to Process Education. These should consist of a brief description of the practice accompanied by a 4 to 5 slide PowerPoint presentation.

We're ready for
your proposal!

Proposal
deadline: **January 2**

Submit your proposal through
the conference website!
